Hello. My name is **Ex. 6 PP – personal name** I'm from N.J. and my dog, Pierre, a beautiful Papillon died suddenly on June 1st 2020. I had bought him a Soresto flea collar at the recommendation of the vet, and two days later , he started breathing heavy, collapsed , had a seizure and stiffened up on my living room floor. He stopped breathing and died. The collar killed him. I am still traumatized.

I called Bayer and they gave me a claim number. I tried to get a lawyer to help, and I am hoping you can help. A week later they sent me a letter saying they have closed the medical portion of it. I called them and they said the collar is safe, and I should have my lawyer call them when I have one. I have read so many stories of what this collar is doing to dogs. I miss my dog but would like to see a lawsuit against bayer. I can be reached at **Ex. 6 PP – personal phone** Please get this off the market.
